We are pleased to be able to  
send You our new price list.

Thanks to Your support, we  
can look back over a successful  
hunting season.

The St. George Hunting Office  
arranges hunting to the highest  
standards, not only in its own  
hunting areas, but in other  
top class Hungarian hunting  
grounds. The St. George  
Hunting Office manages game  
independently in the hunting  
area at Gödre.

This excellent game hunting area lies at the border of Somogy and Baranya counties, on the hilly country of Zselic, between Kaposvár and Pécs.

The 7000 acre hunting ground is famous for its outstanding wild boar hunts. The valleys and forest of the Göcsej hills provide a perfect habitat. This is one of the reasons, 15 – 20 animals can be brought down a day, even in open countryside.

Gödre hunting ground lies between the hunting grounds of the Somogy and Mecsek Forestries. The troat starts at the begining of September and lasts untill the 20 – 25th of September. We bring down 20 – 25 stags during troat in this area, with 7 – 10 kg in trophy weight.

As with similar hunting grounds, the roe-deer stock, is of medium quality and 200-380g antlers can be expected.

In the middle of this scenic hunting ground, there is an 850-acre game preserve. The game preserve owns a seperate boar park, where we can provide a rate of bring-downs of 30-50% for our guests.

In the over 500-acre game preserve, our guests can bring 50 – 80 animals down a day. In the game preserve, there are good quality deers, moufflons and fallow-deer. During driven shoots, deer and moufflon can be brought down, so providing variety.

In the game preserve, we organise private stalking boar hunts. In winter, there is a sledge is available for our guests.

In the ponds of the deep valleys of the Gödre hunting ground, we organised flying halfwild-duck hunts, when it is possible that as many as 500 – 1000 ducks can be bagged on a single occasion. The area is famous for its distinguished cuisine and the friendly welcome extended to visitors.

We look forward to welcoming our guests to our beautifully situated, air-conditioned, antique furnished lakeside apartment houses. For the pleasure of the anglers among our guests, large carp and predatory fish can be caught in our ponds.

For the family members, on request we organise varied cultural visits to the surrounding historical towns of Pécs, Kaposvár and Dombóvár. The thermal and health spas of the Dombóvár-Gunaras are very refreshing after hunting and touring.

Further options are to take a carriage ride, go horseriding, stalk wild animals, or photo hunting in the game preserve.

During these programmes, a skilled hunter guide, with an indepth knowledge of wild game is available to accompany our guests, ensuring that free time between hunts can also be enjoyable.

*We wish you exciting and successful hunting!*
